GD HIVE - National Workshops

February - May 2022

#flashbacks

In order to spread the word and to get additional inputs for the preparation of the GD HIVE micro training sessions and the GD HIVE platform, we consulted young people on our work. See what partners say about these events:

**"Innovation Hive, implemented the workshop in Greece and received very positive feedback about the micro training sessions. Participants improved their skills on the topics of Green Deal and Circular Economy through the training sessions and the activities in this workshop."
Maria, Innovation Hive, Greece**

"We had a fruitful overall discussion, where participants pondered about why the levels of (green) entrepreneurship knowledge are lower and how youth can take advantage of the EU Green Deal opportunities as well as why is it important that the entrepreneurship is green and circular (sustainable development of the economy, society and environment)."

Eva, MIITR, Slovenia

**"An inspiring meeting obviously for both sides - for the young people as they were very interested and active and for us as we got valuable feedback for the further development of our outputs."
Michael, STRATECO, Austria**

**During workshops in Poland the participants not only learned what the road map of innovation is, but also created their own ideas and set the most important goals and points for their implementation. One of the activities was also a debate on the importance of setting short- and long-term goals for yourself.
Zuzia, FEIO, Poland**

Joint Staff Training

March/April 2022

#flashbacks

GD HIVE

To support our creativity, we invited a guest speaker from the circular economy and recycling field, visited and upcycling social entrepreneurship NGO and enjoyed a city tour through Graz.

Five very intensive and constructive days of learning and further improvement of our micro training sessions and our platform. In a group of fifteen people from all the partner countries we improved our skills in the Green Deal fields, in Circular Economy and in entrepreneurship topic and used the discussions for further improving our work.
